

COMMITMENT TO THE COMMUNITY

At the Aqua Mirage Club Marrakech, we believe that a Company should appear socially responsible and contribute improving the quality of life in communities where it is established and it operates, generating social and economic development opportunities through its commitment to:

Integration: *Respect, support and promote culture, regulations and prevention of the local environment.*

Collaboration: *Maintain a constant dialogue with the local community and its social agents to be aware of their needs and contribute to their progress through responsible actions.*

Purchases: *Prioritize the purchase of local products to strengthen the economic and social development of the community, if they guarantee the standards of quality, price and the health and safety criteria.*

Employment: *Hiring local staff in priority to encourage the development of the society in which it operates and focus on enriching the cultural diversity of our teams.*

Social investment: *Implement a strategy of collaboration with social entities, through a process that encourages participation in the following lines of action:*
